ACP-ST Programme Deadline Extended to 13 March

The ACP Science and Technology Programme focused on Science and Technology has published an extended deadline for receipt of hard copy proposals in Brussels of **13 March**.

The Programme is funded by the European Union (from the IXth European Development Fund and the European Union's General Budget BL 21.031700) and implemented by the ACP Secretariat. Please go to <http://www.ist-africa.eu/home/default.asp?page=acpstprog> for more information and to download the relevant documents.

The ACP Science and Technology Programme will fund projects that primarily focus on:

- Quality health care: with special attention both to traditional and biodiversity dependent community medicines and to the developments taking place in biotechnology.
- Environmental research activities: addressing climatic variability, loss of biodiversity, deforestation, desertification and rising sea levels, as well as issues associated with upgrading and mainstreaming appropriate indigenous technology and establishing efficient mechanisms for access to and the adaptation of appropriate foreign technology.
- Energy: with special attention to renewable sources of energy such as solar, wind, hydro and biomass energy.
- Transport: addressing transport congestion, air pollution and accidents.
- Agriculture and agro-industry: addressing food productivity and security, adding value to agro-products and encouraging a stronger participation by farmers in production and post-harvest management.
- Sustainable trade: in order to increase investments, encourage development in the private sector and improve the trading capacity of ACP countries. Attention will be given to the socio-economic impact of international trade agreements and protocols on sustainable development in ACP countries

Projects should run for between 12 months - 3 years and the total grant available is between 350,000 euro - 1 million euro per project. It is necessary for the consortium to consist of a minimum of three organisations from at least two different ACP Member States. The number of non-ACP partners in a partnership cannot be greater than the number of ACP partners.
