

Horizon 2020 – The Framework Programme for Research and Innovation

Horizon 2020 commenced in January 2014 as the new Framework Programme to implement the [Innovation Union](#) with research and innovation funds of €80 billion from 2014 – 2020.

Horizon 2020 addresses all research and innovation funding that was previously provided through the Framework Programmes for Research and Technical Development (e.g. FP7), Competitiveness and Innovation Programme (CIP) and European Institute of Innovation and Technology.

Support proposed for Research and Innovation under Horizon 2020 includes:

- Strengthening research in Science (budget of €24.5 billion)
- Strengthening Industrial leadership in Innovation (budget of €22.6 billion), including investment in key technologies, access to capital and support for SMEs
- Address Societal challenges (budget of €31 billion) such as climate change, sustainable transport and mobility, affordable renewal energy, food security, ageing population

This Guide to Horizon 2020 provides an overview of Calls, themes and deadlines from 2014 Calls for Proposals within the **Marie Curie**, **eInfrastructures**, **Leadership in Enabling and Industrial Technologies** (LEIT - Components and Systems, Advanced Computing, Future Internet, Content Technologies and Information Management, Robotics and Key enabling Technologies (Micro-nano-electronics and photonics)) and each of the **Societal Challenges** (Health, Food Security and Agriculture, Energy, Transport, Environment, Inclusive and Reflective Societies, Secure Societies) Work Programmes.

The Work Programmes for each thematic area were published on 11 December 2013. Please find links to these work programmes within the relevant sections in this Guide.

Horizon 2020 is fully open to International Cooperation. African research institutions can participate as part of International Consortia with partners from Europe to apply for funding as part of an international project addressing the challenges published in the Work Programme.

ICT is a horizontal activity that is included across a number of Work Programmes within LEIT and within Societal Challenges Work Programmes.

II. Leadership in Enabling and Industrial Technologies

With the aim to make Europe a more attractive location for investment in research and innovation, it is envisaged that Horizon 2020 will build

- Leadership in enabling and industrial technologies with dedicated support for ICT, nanotechnologies, advanced materials, biotechnology, advanced manufacturing and processing, and space, while also providing support for cross-cutting actions to capture the accumulated benefits from combining several Key Enabling Technologies;
- Facilitate access to risk finance;
- Provide support for innovation in SMEs.

Societal Challenge 1: Health Demographic Change and Wellbeing

The Horizon 2020 Societal Challenge of '[Health, Demographic Change and Wellbeing](#)' (SC1) for 2014 and 2015 includes 34 topics in the 'personalising health and care' focus area call (15 in 2014 only, 17 in 2015 only and 2 which are open in both years) and 16 topics in the 'co-ordination activities' call (11 in 2014 and 5 in 2015). The total budget available for 2014 is (€589 million).

Topics in the call are divided into 7 areas that reflect the need for a transnational and integrated approach to the challenge, providing support both to longer and mid-term research as well as to shorter-term innovation activities. Topics in the areas of 'understanding health...' and 'improved health information and data exploitation' provide underpinning, longer term support to topics in the areas of 'prevention...', 'diagnosis...', 'treatment...', 'advancing active and healthy ageing' and 'delivering integrated, sustainable and citizen centred care'.

Work to be supported by these topics will improve our understanding of the causes and mechanisms underlying health, healthy ageing and disease; improve our ability to monitor health and to prevent, detect, treat and manage disease; support older persons to remain active and healthy; and test and demonstrate new models and tools for health and care delivery. In doing so, support will be provided to research and innovation performers, including significant, tailored support to SMEs.

Societal Challenge 2: Food security, sustainable agriculture, marine and maritime research, and the bio-economy

The Horizon 2020 Societal Challenge of '[Food Security, Sustainable Agriculture, Marine and Maritime Research and the Bio-economy' \(SC2\)](#)' for 2014 and 2015 is composed of three calls, two highly cross-cutting calls on 'Sustainable Food Security' and on 'Blue Growth' (to which other parts of Horizon 2020 contribute directly and indirectly) and a call aiming at fostering an 'Innovative, Sustainable and Inclusive Bioeconomy'. Activities under this Societal Challenge also contribute directly to calls published under other parts of the Work Programme, such as 'Personalising Health and Care' (Topic PC-7), 'Waste: a Resource to Recycle, Reuse and Recover Raw Materials' (WASTE-2, WASTE-7) and 'Water Innovation: Boosting its Value for Europe'(WATER-4, SFS-2, SFS-4, SFS-8, SFS-11, ISIB-4, ISIB-5, ISIB-12 & WASTE-7 also contribute to "Water Innovation: boosting its value for Europe").

While all calls for open to third country participation, certain topics have been specifically flagged as particularly well suited for international cooperation, stemming from the EU - China dialogue on research and innovation and the China-EU Task Force on Food, Agriculture and Biotechnology (SFS-1A; SFS-1B; SFS-3B; SFS-4; SFS-13; WASTE-2, WASTE-7), the Transatlantic Research Alliance, launched by the Galway Statement on Atlantic Ocean Cooperation (BG-1; BG-7; BG-8; BG-13; BG-14; BG-15), the International KBBE Forum between the EU, Australia,

Canada and New Zealand (SFS-10; SFS-16), the EU - Africa dialogue on research and innovation (SFS-6, SFS-18), or concerning other issues (SFS-3A; SFS-5; SFS-10; SFS-7B; SFS-14A; SFS-15; SFS-16; SFS-19B; SFS-20; BG-14; BG-15; ISIB-3; ISIB-9; ISIB-11; ISIB-12; PHC-7). For these topics, participation from targeted countries or regions will be positively considered during the evaluation of proposals.

The total budget available for 2014 is approximately EUR 255 million.

Societal Challenge 3: Secure, Clean and Efficient Energy

The Horizon 2020 Societal Challenge of "[Secure, clean and efficient energy' \(SC3\)](#)" for 2014 and 2015 is composed of three focus areas "Energy Efficiency", "Competitive Low-Carbon Energy" and "Smart Cities and Communities". These activities cover the full innovation cycle – from 'proof of concept' to applied research, pre-commercial demonstration and market uptake measures. They also exploit synergies with other relevant areas, e.g. information and communication technologies. In addition, the Energy Challenge contributes to the 'Blue Growth' focus area as well as to the Public Private Partnerships Energy-efficient Buildings3 and Sustainable Process Industries (SPIRE - Topic EE18).

International cooperation with strategic partner countries and global technology leaders will support European energy and climate objectives and contribute to the global efforts to mitigate climate change and reduce CO₂ emissions. In line with the objectives of the EU's strategy for international cooperation in research and innovation, all activities are open for third country participants, while certain partner countries are also specifically targeted in a number of topics (Topics targeting third countries: LCE 13 (Brazil), LCE 15 (Australia, North-America) and LCE 16 (US, Canada)).

The total budget available for 2014 is approximately EUR 563 million.

Societal Challenge 4: Smart, green and integrated transport

The Horizon 2020 Societal Challenge of '[Smart, green and integrated transport' \(SC4\)](#)' for 2014 and 2015 is structured in four broad lines of activities aiming at:

- a) Resource efficient transport that respects the environment.
- b) Better mobility, less congestion, more safety and security.
- c) Global leadership for the European transport industry.
- d) Socio-economic and behavioural research and forward-looking activities for policy making.

These activities are addressed in this Work Programme by three Calls for proposals:

1. Mobility for Growth
2. Green Vehicles
3. Small Business and Fast Track Innovation for Transport

The total 2014 budget available is approximately EUR 511 million.

Societal Challenge 5: Climate action, resource efficiency and raw materials

The Horizon 2020 Societal Challenge of '[Climate action, resource efficiency and raw materials](#)' (SC5) for 2014 and 2015 is composed of three calls,

- Waste: A Resource to Recycle, Reuse and Recover Raw Materials
- Water Innovation: Boosting its value for Europe
- Growing a Low Carbon, Resource Efficient Economy with a Sustainable Supply of Raw Materials

Actions under this Work Programme address gaps in the knowledge base needed to understand changes in the environment, identify the policies, methods and tools that would most effectively tackle the above mentioned challenges, and support innovators and businesses to bring green solutions to market. Waste and water are particular priorities, on the grounds of their substantial potential for business opportunities and job creation while tackling important resource efficiency challenges.

In addition to the calls below, activities relating to climate action, environment, resource efficiency and raw materials are also found in the calls relating to 'Blue growth: unlocking the potential of the oceans', 'Energy-efficiency' and 'Disaster-resilience: safeguarding and securing society, including adapting to climate change'.

The total budget available in 2014 is approximately EUR 339 million.

Societal Challenge 6: Inclusive, innovative and reflective societies

Reducing inequalities and social exclusion in Europe (people at risk of poverty, young people not in education, employment or training), overcoming the economic and financial crisis and tackling unemployment (particularly youth unemployment) are crucial challenges for the future of Europe. There is also great potential for Europe through opportunities provided by new forms of innovation and citizen engagement.

Supporting inclusive, innovative and reflective societies is a prerequisite for sustainable European integration. The Horizon 2020 Societal Challenge of '[Europe in a changing world – Inclusive, innovative and reflective societies' \(SC6\)](#)' for 2014 and 2015 is composed of four calls,

- Overcoming the Crisis: New Ideas, Strategies and Governance Structures for Europe
- the Young Generation in an Innovative, Inclusive and Sustainable Europe
- Reflective Societies: Cultural Heritage and European Identities
- Europe as a Global Actor
- New Forms of Innovation

The first aim is to gain a greater understanding of the societal changes in Europe and of their impact on social cohesion and to analyse and develop social, economic and political inclusion and positive inter-cultural dynamics in the EU and with international partners, through cutting-edge science and inter-disciplinarily, technological advances and organisational innovations (Call EURO, call YOUNG and Call INT).

The second aim is to foster the development of innovative societies and policies in Europe through the engagement of citizens, civil society organisations, enterprises and users in research and innovation and the promotion of coordinated research and innovation policies (Call INSO).

The third aim is to contribute to an understanding of Europe's intellectual basis, its history and the many European and non-European influences, as an inspiration for our lives today (Call REFLECTIVE).

As a horizontal activity, social sciences and humanities (SSH) research is fully integrated into each of the pillars of Horizon 2020 and each of the specific objectives. In relation to the societal challenges, SSH is mainstreamed as an important element of the activities needed to tackle each of them in order to enhance their impact. This societal challenge will support SSH research by focusing on inclusive, innovative and reflective societies.

The total budget available for 2014 is approximately EUR 112 million.

Societal Challenge 7: Secure Societies

The Horizon 2020 Societal Challenge of '[Secure Societies - Protecting freedom and security of Europe and its citizens' \(SC7\)](#)' for 2014 and 2015 is composed of four calls, addressing natural and man-made disasters,

- Call 1 - new crisis management tools to communication interoperability, and developing novel solutions for the protection of critical infrastructure
- Call 2 - fighting crime and terrorism ranging from new forensic tools to protection against explosives
- Call 3 - improving border security, ranging from improved maritime border protection to supply chain security and supporting the Unions external security policies including through conflict prevention and peace building
- Call 4 - providing enhanced cybersecurity (call 4), ranging from secure information sharing to new assurance models.

This Work Programme will contribute to the implementation of the policy goals of the Europe 2020 strategy, the Security Industrial Policy, the Internal Security Strategy and the Cyber Security Strategy.

The respect of privacy and civil liberties is a guiding principle throughout this Work Programme. All individual projects must meet the requirements of fundamental rights, including the protection of personal data, and comply with EU law in that regard.

Proposers are encouraged to use, where appropriate, the services provided by European space-based systems (e.g. EGNOS, Galileo or Copernicus).

The total budget available for 2014 is approximately EUR 178 million.
